

Tasthana

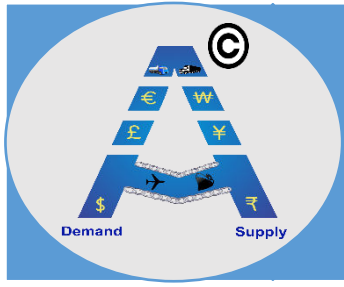

We proudly launch “Tasthana” a software which will revolutionize the way deposits are handled

What is the Product?

- The product is made for banks and their customers. It is called Tasthana.
- Bank customers can use Tasthana to create online deposits.
- Customers can also use it to modify their deposits.
- Customer can also close or withdraw money from their deposit anytime they please.
- Bank can monitor all deposits and the modifications made to it.
- Bank will also monitor payments made on the various deposits.

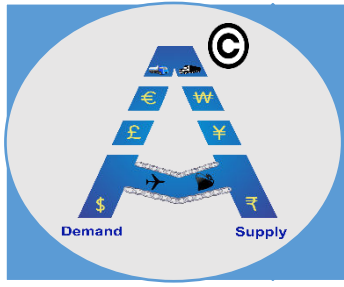

Why Tasthana?

Tasthana overcomes some of the inherent flaws of current bank deposit systems:

- **The principle deposit amount cannot be increased or decreased by the bank customer**
- **The bank deposit tenure time cannot be modified**
- **The payoff amount cannot be deposited amongst multiple accounts**
- **No amount can be withdrawn by the customer in middle of the tenure**

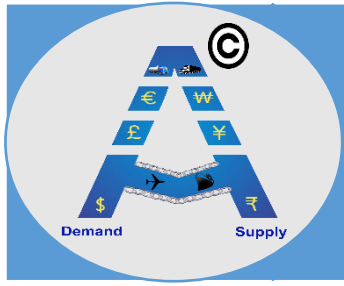

Tasthana overcomes all these drawbacks and makes the entire deposit system a lot more flexible.

Salient Features

- Creation and monitor of customer accounts and deposits.
- Setting and updating interest rates and taxes for different categories of customers.
- Creation of new deposits by customer/bank.
- Dynamic modifications of deposits.
- Withdrawals of deposit amount anytime as requested by the customer.
- Adding and monitoring payments done by customer on their deposit.
