

HR MANAGEMENT

We are launching HR Management – A system devised for the management of the employees

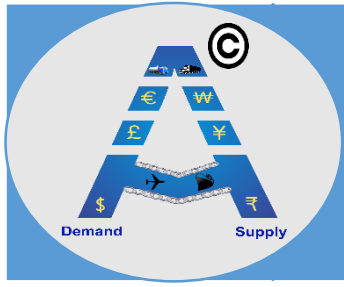

Product Overview

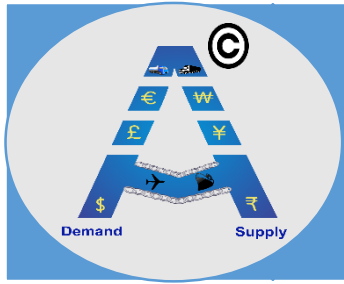

- **The product is made to completely track the employee details from the recruitment to separation.**
- **This product is customized according to the roles in the organization.**
- **Admin can monitor all the employee leave information, track employee attendance, Bills and many more even when they are away from office.**
- **Employee can also have the complete record of his leaves, attendance and billing which can also be done even when he/she is away from office.**
- **Office Manager can maintain bills related to allowances of individual employee as well as the complete organization.**

Special Features

- **Online leave application and approval process.**
- **Automatic bill calculation of allowances on a weekly and monthly based on attendance.**
- **Monitoring made easy.**
- **Employee can access and update their own records based on established rules.**
- **Job offers, Notices, events etc. gets populated for all the individuals on single click.**
